Written by Ravi Raj

## **Chapter 1: Arrival to the Unknown**

The poor people of Europe left their homeland behind, sailing across the vast sea in search of a new land-far away from the clash of sword and steel.

Among them was Eugene and his family, who arrived on an island unknown to man.

There, they encountered a native tribe-hospitable and welcoming. With Eugene came his son, Jhony, a bright and gentle child stepping into adolescence.

## **Chapter 2: Sunshine on Worthy**

Jhony soon befriended a native boy. Communication was difficult at first, but through patience, learning, and sign language, their bond grew stronger.

Together, they played, explored the forests, and wandered through ancient ruins. One day, they discovered a crumbling temple, a sacred place dedicated to the tribe's Sun God.

As Jhony reached out and touched a glowing bronze artifact, something mysterious began to emerge from the stone...

## **Chapter 3: Scummy Scumbag Attack**

Just as Jhony stood in awe of the transforming bronze, he and his friend heard distant shouting. Alarmed, they rushed toward the main settlement.

In his haste, Jhony ran faster than he ever had before, unaware of the newfound energy surging through him.

## **Chapter 4: Danger Far Away-Not!**

When Jhony arrived, he saw pirates attacking the innocent villagers. Instinct took over. He struck one of the raiders with unexpected force, sending him flying through the air.

The invaders, panicked by the sudden display of strength, began to flee.

But as the dust settled, a terrible realization hit them-one of the chief's children was missing.

Determined to save the child, Jhony, his father, and the chief set out to sea. The ocean was vast, and the search seemed hopeless. But then, Jhony felt something-as if the sunlight itself was guiding him.

Against all odds, they found the enemy ship. The child was aboard. As they attempted a daring rescue, the pirates caught on, and all guns were aimed at them.

But before a single shot could be fired, something monstrous stirred beneath the waves...

## **Chapter 5: Harmony at the Harbour**

Safely returning home, the chief and Jhony's father agreed to keep Jhony's changes a secret-for now. But they would remain watchful.

As peace returned to the island, the people thanked the ancient Sun God.
